**Dear Dr. Hegyi,**

The international multicenter prospective double-blind randomized controlled trial (RCT) named " High versus low energy administration in the early phase of acute pancreatitis (GOULASH study)" has been submitted for ethical review. This project was considered by the Scientific and Research Ethics Committee of the Medical Research Council at its meeting held on 25<sup>th</sup> October 2016.

I am pleased to inform you that the Scientific and Research Ethics Committee of the Medical Research Council has granted ethical approval of this research project.

Yours faithfully,

  
Prof. Dr. Zsuzsa Schaff  
Member of the Hungarian Academy of Sciences  
Chair of Scientific and Research Ethics Committee,  
Medical Research Council
